

Since 2009 Licanias has handcrafted typical Sardinian nougat in various flavors and formats. The ingredients used are exclusively high quality honey, carefully selected dried fruit, egg white and host of potato starch. Particular attention is given to the heart products of the island for which only the use of Sardinian honey is guaranteed.

The production of nougat has distant origins and the town of Tonara has been able to seize this great opportunity handed down from generations.

The company is BIO certified by CCPB and ISO 9001, ISO 14001 and its products are certified for ISO 22005 traceability. It therefore has a BIO line and a Classic line.

Licanias De Sardigna

di Porru Antonio Mario & C
